

I am a loyal listener of K-LOVE. I love it because it is a radio station my whole family can enjoy together, without fear of inappropriate lyrics or other content. I especially like that it is available across the country so that when I'm traveling, I can still find a familiar station. Most of my friends listen to K-LOVE as well, and I am sick to think that it would no longer be available nationwide, due to LPFM broadcasters providing other programming. This would affect so many people, particularly the many of us who are often traveling. Please don't do anything that would result in my favorite family station to go off the air. It is a huge encouragement to me, and countless other people, daily, and I would miss it greatly if it were no longer available.

Thank you.

Sincerely,  
Corrie Hayes
